PLEASE DESCRIBE THE TYPE OF WORK TO BE COMPLETED

(Be as detailed as possible to avoid having to provide additional information)

Provide a detailed description of the proposed project:

This request will fund a pilot year of work examining juvenile salmonid habitat use patterns in the Hood Canal nearshore. The objective of the project is to refine the recovery strategy and project selection process for ESA listed stocks of Hood Canal summer chum and chinook salmon. The first year's work will focus on compiling existing data sources and literature to develop a well researched study plan as well as pilot sampling at expected sites and will include limited (4-5 days per month) sampling from January through September. We would likely require 3-5 years worth of data to develop a complete picture of nearshore fish use in the Hood Canal, but would return to the SRFB for funding future years following this request to fund the initial year.
